

Strategic direction of **Precision machining**

IME aims to be a leading company in the manufacture of high-precision machined parts for third parties, and to gain a strong presence in the international market, as well as to continue with the work done to diversify its customers throughout our sectors.

Mission

Machining parts and supplying them on time, with the required quality and complying with the requirements required by our customers.

Vision

Be perceived as a company in continuous development, that is committed to technological and management growth. We make the most of our talents to achieve exceptional vision and innovation.

Values

Most important values: leadership, collaboration, integrity, honesty, transparency and accountability, passion, and preservation of a respectful workplace.

IME thrives thanks to its continuous customer service, innovation and openness to change

Integrated Policies

The organisation is committed to satisfying its customers by ensuring the highest quality in all its production processes, providing a safer and healthier working environment and conditions, minimising or avoiding risks and the deterioration of health for its staff, and implementing measures for preventing pollution and the sustainable use of resources.

The pillars on which the Integrated Policies of IME **Talleres Mecánicos IME, S.L.** are:

- ✓ **Determine** the processes and the risks and opportunities identified in section 6.1. of the reference standard ISO 9001:2015 and ISO 14001:2015, and some requirements of IATF16949:2016.
- ✓ **Meet and exceed**, if possible, the Management System, legal, and regulatory requirements or other commitments made by IME that may arise from the service, the expectations of the customer and the stakeholders.
- ✓ **Improve** continuously the management of Quality, Health and Safety at Work and the Environment, and the performance of the organisation in all respects.
- ✓ **Implement** resources for compliance with this Integrated Policy.
- ✓ **Enhance** continuously and improve the management of Quality, Health and Safety at Work and the Environment, and the performance of the organisation in all respects of the Continuous Improvement in the Management System.

- ✓ **Optimise** costs through the correct use of available human and material resources.
- ✓ **Prioritise** the performance of Environmental and Occupational Health and Safety Management in order to provide safe and healthy working conditions and protect the Environment.
- ✓ **Minimise** the environmental impact of our activity through the control of significant environmental aspects promoting pollution prevention and sustainable development.
- ✓ **Create** a culture of integral management based on the quality of our products and services, and corporate social responsibility operating in a way that preserves natural resources and managing waste responsibly.
- ✓ **Train** the staff to satisfy and give confidence to our stakeholders, working with an ethical conduct to minimise the environmental impacts of our activity by controlling significant environmental aspects.
- ✓ **Reach** a high level of health and safety, and job satisfaction, improving the working situation of our workers and those who perform work for our organisation.
- ✓ **Encourage** respect for human rights by promoting a culture of acceptance, integration and work diversity.

This integrated policy is available and communicated internally and externally in a transparent manner to our customers, staff and other relevant stakeholders with the aim of making them aware of their individual obligations in terms of Quality, Environment and Health and Safety.
